**hypro pet care** formerly known as Hypro (Aust), was established in 1998 with its primary focus to produce quality stockfeeds for rural farmers. The company was approached in 2002 to produce pet food as a contract manufacturer for a much larger firm.

The year 2006 was a special milestone for **hypro pet care** as it developed a unique recipe for pet food along with a new company vision, and as a result, a strategic management decision was made to launch its own brand '**Dogpro™**' into the Australian rural market.

As a result **hypro pet care** has now become one of Australia's largest producers of premium dry dog food with its mega value brand '**Dogpro™**'.

**We are 100% Australian Owned**
